

I would like my local fm station (KLOVE fm90.7) to continue serving me because it provides wholesome listening for my children ages 2 - 17 and myself. I never have to worry that they will repeat anything I disapprove of. When I listen I am always uplifted. When we moved here with the military from California we could not find KLOVE. We were very sad because it was a way to connect with our family back home. I have heard so many stories about people being in despair and KLOVE encouraging them to go on. I think it would be a great loss to lose such a positive influence to the public when there are so few. Please do not expand LPFM to take priority over the only station we listen to.
